The Organizational History of Field Artillery, 1775-2003, traces the evolution of one of the U.S. Army's premier combat arms—field artillery, the King of Battle. For over 230 years, the artillery force has supported Army ground troops during the struggles to preserve and expand the fledgling nation and then during the wars abroad

Field Artillery Organization

regime type. The author contends that the North Korean political system is best conceived as a totalitarian regime that, although weakened, remains remarkably resilient. After analyzing the key elements of totalitarianism, he argues that the system's greatest test will probably come after the death of Kim Jong Il.
